20/8 10.00-12.00

Kick-off webinar with an introduction to the course as well as inspirational presentations.

WEBINARS

DATES TO BE ANNOUNCED

Online webinars and workshops covering various aspects of Generative AI and learning, eg. prompt engineering, learning objectives and assessment, practice examples of integrating GenAI into teaching, ethical considerations etc.

WEBINARS

DATES TO BE ANNOUNCED

Online webinars and workshops covering various aspects of Generative AI and learning, eg. prompt engineering, learning objectives and assessment, practice examples of integrating GenAI into teaching, ethical considerations etc.

AU

1ST LOCAL MEETING

27/8 13.00-15.00

At this meeting the focus will be to introduce prompting techniques and allow for sharing of ideas. Furthermore, the meeting will introduce the facilitators, the resources, infrastructure, and support system regarding GenAI at AU. The meeting will be online and include all AU participants.

2ND LOCAL MEETING

DATES WILL BE PROVIDED FOR EACH INDIVIDUAL FACULTY GROUP

At this meeting the focus will be to share prior experiences and expectations, and to identify, develop and shape a teaching experiment with generative AI to carry out in the fall semester. The meetings will be in faculty groups.

3RD LOCAL MEETING

DATES WILL BE PROVIDED FOR EACH INDIVIDUAL FACULTY GROUP

At this meeting it will be possible to discuss and plan teaching experiments with peers, as well as a learning consultant and/or the technical resource person in order to get feedback. The meetings will be in faculty groups.

DEADLINE FOR TEACHING CASES

31/3

This is the deadline for handing in teaching cases, which summarizes the experiments. A template for the teaching case will be provided.

KNOWLEDGE SHARING

DATE TO BE ANNOUNCED

At this final webinar, the participants from all three institutions will present their teaching experiment and evaluate on the course.

AU

4TH LOCAL MEETING

DATES WILL BE PROVIDED FOR EACH INDIVIDUAL FACULTY GROUP

At this meeting participants will share their initial experiences with their teaching experiment and based on feedback from facilitators and peers develop their teaching experiment further or develop a teaching experiment for the Spring semester. The meeting will be in faculty groups.
